

Identification / Labeling

TMS-SCE Printable Tubing

Features and Benefits:

- Thermal transfer printable
- Permanent identification sleeves
- Lightweight for aerospace applications
- Military specification material and print performance
- 2:1 shrink ratio
- CSA Certified
- UL Recognised

HX-SCE Wire and Cable Identification

Features and Benefits:

- Thermal transfer printable
- Zero Halogen
- Low Toxic Fumes
- Low Smoke
- Self-extinguishing, non-flame propagating
- Excellent resistance to burning - Oxygen Index 39%
- Resistant to key industrial and rail fluids
- Excellent print permanence when tested in demanding industry related fluids
- 2:1 shrink ratio

SBP Self Laminating Vinyl Labels

Features and Benefits:

- Thermal transfer printable
- UL Recognised
- Excellent conformability to round, irregular and flexible surfaces
- Withstands exposure to oil, solvents and water
- Other colours available on request
- Supplied with slotted liner for easy printer recognition
- Self-lamination is an easy, cost effective way to protect printed information

LEB Polyester Labels

Features and Benefits:

- Laser and ink jet printable
- Exceptional durability and tear strength
- Suitable for low volume applications
- Excellent for bar code applications
- Good resistance to common fluids and water
- LM is UL recognised
- LM metalized appearance is ideal for rating plate applications
- LEB has excellent resistance to abrasion, oil, industrial chemicals and other fluids

Identification / Labeling

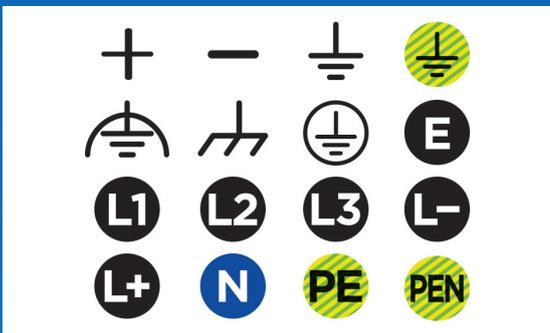

ESSW Pre-printed safety and warning labels

Features and Benefits:

- Pre-printed
- Protected by polyester overlamine
- Soft yellow vinyl label is easily identifiable due its bright colour and brilliant contrast
- Excellent resistance to dirt, stain and fluids
- Comes in a variety of different warning signs

LKZ Pre-printed vinyl electric symbol labels

Features and Benefits:

- Pre-printed
- Supplied on sheet for ease of use
- Excellent resistance to dirt, stain and fluids
- Comes in various different electrical signs in a variety of sizes

Thermotransfer Printers

Features and Benefits:

- WiFi capability
- Large full colour touch screen
- Pre installed Help Videos
- Multiple language selection
- Ribbon ink side warning
- available in 300 dpi and 600 dpi

STD-Marker

Features and Benefits:

- rapidly and permanently mark cables, wires, leads, and after termination and installation
- Zero Halogen
- Excellent Resistance to Burning - UL94 HB rated
- Resistant to key fluids, including those used in Energy, Oil refineries, Aviation and Military
- Made from polyoxymethylene which guarantees strength, dimensional stability, low moisture absorption, and good resistance to chemicals
- Applicator wands available for easy marker installation
