

# Heat Shrinking Products

## Heat-Shrink Tubing

### Products:

- Singlewall Tubing
- Dualwall Tubing
- High-Performance Tubing
- Tubing for special purpose

### Application:

- Electrical isolation
- Preventing damage from chemicals and mechanical abrasion
- Strain relief

## Moulded Parts

### Products:

- Connector Boots
- Moulded Transitions
- Endcaps

### Application:

- Harnessing
- Strain relief
- Preventing damage from chemicals and mechanical abrasion
- Sealing to prevent entry of fluids and EMV Protection

## Sealing Systems

### Products:

- Coordinated Sealing Systems

### Application:

- Harnessing
- Sealing to prevent entry of fluids
- Preventing damage from chemicals and mechanical abrasion

## Profiles

### Products:

- Edge Protection

### Application:

- Preventing damage from sharp edges

# Connection Technology

## Shrink- and Crimp Connectors

### Products:

- Crimp Connectors
- Fork and Ring Terminals
- Flat Push-on Terminals

### Application:

- Wire connections
- Preventing damage from chemicals and mechanical abrasion
- Sealing to prevent entry of fluids
- Strain relief

## Solder Sleeves

### Products:

- Soldersleeves
- Shield-Connecting
- Coaxial soldersleeves

### Application:

- Wire connections
- Preventing damage from chemicals and mechanical abrasion
- Sealing to prevent entry of fluids
- Strain relief

## Shield Terminals

### Products:

- Tinel-Lock Rings

### Application:

- Shielded Cablesystems
- Contacts and shields screen braids to connectors / adapters
